EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. The application has been amended as follows:
3. Applicant's response to the election/restriction action, which is acknowledged on 3/12/2007 with the election of group I asset of claims 1-8 and 14. However, Applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election was treated as an election **without** traverse.

Please cancel non-elected claims 9-13, 15 and 16.

Allowable Subject Matter

4. Claims 1, 2, 4-8 and 14 are allowed.
5. Claim 3 is cancelled.
6. The following is an examiner's statement of reasons for allowance:
7. The prior arts of record fail to teach or suggest an assembling device for a plastic-lens-forming casting mold as defined in claims of the instant application. The closet prior arts Magne (U S Patent No. 6,419,860) and

Spector et al. (U S Patent No. 4,836,960) fail to teach or suggest gasket **clamping driving unit** which drives at least one of the first and second clamping means as defined in claim 1, and **mold push-moving amount adjusting mechanism** which adjusts a mold push-moving amount of the second mold push-in mechanism as defined in claim 7 of the instant application. Nor does there appear to be any reason in these references, or combined with any of the other prior art of record, to modify the assembly device for casting mold to result in such a combination of features.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
